## Investment Philosophy

At the Adirondack Small Cap Fund (ADKSX), we incorporate independent thinking, patience, and strict value criteria to choose companies as investments in the Fund.

As contrarians, we believe that the best opportunities are found in smaller companies that have fallen out of favor with investors. We look for companies that have good balance sheets, solid cash flows and highly motivated management teams with clear and measurable plans to return the business back to optimal operating performance.

We use a 'middle-down' research approach which identifies attractive industries for investment, eventually paring down to the few companies in those industries that make attractive additions to the Fund.

By assembling a diverse portfolio\* of these opportunities, we seek to offer our shareholders compelling risk-adjusted returns over the long run.

*\*Diversification does not assure a profit or guarantee against loss.*
