Fund Summary

Investment Objective

The objective of the Fund is long-term capital appreciation.

Fees and Expenses of the Fund

The following table describes the fees and expenses that you will pay if you buy, hold and sell shares of The Adirondack Small Cap Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the tables and example below.**

Shareholder Fees (Fees Paid directly from your investment):

Maximum Sales Charge (Load) Imposed on Purchases	None
Maximum Deferred Sales Charge (Load)	None
Maximum Sales Charge (Load) on Reinvested Dividends	None
Redemption Fee	None
Exchange Fee	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment):

Management Fees	1.08%
Distribution (and/or Service) (12b-1) Fees	None
Other Expenses	0.51%
Acquired Fund Fees and Expenses ⁽¹⁾	<u>0.00%</u>
Total Annual Fund Operating Expenses	<u>1.59%</u>
Fee Waiver and/or Expense Reimbursement ⁽²⁾	<u>(0.11%)</u>
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	<u>1.48%</u>

¹Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights because the financial statements include only the direct operating expenses incurred by the Fund.² The Fund's advisor, Adirondack Research and Management, Inc. (the "Advisor"), has contractually agreed to defer its management fee and reimburse expenses to the extent necessary to maintain the Fund's total annual operating expenses (excluding brokerage costs, borrowing costs) such as interests and dividends on securities sold short), taxes, extraordinary expenses, and costs of acquired funds) at 1.48% of its average daily net assets until 1.48% until August 1, 2024. The agreement may be terminated by the Fund's Board of Trustees on 60 days' written notice to the Advisor. Any waiver or reimbursement by the Advisor is subject to repayment by the Fund within three years after the waived or reimbursed expenses occurred, if the Fund is able to make the repayment without exceeding the lesser of its current expense limitation or the expense limitation in effect at the time of the reduction, and the repayment is approved by the Board of Trustees.

Expense Example:

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<u>1 year</u>	<u>3 years</u>	<u>5 years</u>	<u>10 years</u>
\$151	\$468	\$808	\$1,768

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 28.07% of the average value of its portfolio.

Principal Investment Strategy

The Fund seeks to achieve its objective by investing in a diversified portfolio of undervalued common stocks of small capitalization companies as determined by the Advisor. Small capitalization companies are defined by the investment advisor as issuers that, at the time of initial purchase, have a market capitalization below \$6 billion. Under normal circumstances, at least 80% of the Fund’s total assets will be invested in common stocks of small capitalization companies. The Fund may invest up to 15% of its total assets in sponsored American Depositary Receipts (“ADRs”) issued by foreign companies. The Advisor employs a contrarian selection strategy, which primarily focuses on out-of-favor securities. Market expectations for such companies are low, resulting in attractive valuations in certain cases. To find such stocks, the Advisor uses screens that include key valuation metrics such as price-to-book value, price-to-cash flow, price-to-revenue and price-to-earnings. The Advisor establishes price targets before securities are purchased and re-evaluates these price targets quarterly, or more frequently if conditions warrant. When price targets are reached, the position is sold. In addition, the Advisor will reduce positions that exceed 5% of the portfolio and sell those securities when the original investment rationale is no longer justified due to either company specific or industry issues.

Principal Risks of Investing in the Fund

Risks in General

Domestic economic growth and market conditions, interest rate levels, political events, climate change and climate-related events, and global pandemics are among the factors affecting the Fund’s investments. There is risk that these and other factors may adversely affect the Fund’s performance. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. You may lose money by investing in the Fund.

Risks of Investing in Common Stocks

The Fund invests primarily in common stocks, which subjects the Fund and its shareholders to the risks associated with common stock investing. These risks include the financial risk of selecting individual companies that do not perform as anticipated, the risk that the stock markets in which the Fund invests may experience periods of turbulence and instability, and the general risk that domestic and global economies may go through periods of decline and cyclical change.

Foreign Risk

To the extent the Fund invests in foreign securities by purchasing ADRs, the Fund may be subject to risks not usually associated with owning securities of U.S. issuers. These risks can include fluctuations in foreign currencies, foreign currency exchange controls, political and economic instability, differences in financial reporting, differences in securities regulation and trading, and taxation issues.

Risks of Smaller-Sized Companies

To the extent the Fund invests in the stocks of smaller-sized companies, the Fund may be subject to additional risks. The earnings and prospects of these companies are more volatile than larger companies. Smaller-sized companies may experience higher failure rates than do larger companies. Smaller-sized companies may have limited markets, product lines or financial resources and may lack management experience.

Value Investing Risk

Value investing attempts to identify companies selling at a discount to their intrinsic value. Value investing may also involve the purchase of securities that are disfavored in the market or companies whose value the Advisor believes is not fully recognized by the investing public. Value investing is subject to the risk that a company's intrinsic value may never be fully realized by the market or that a company judged by the Advisor to be undervalued may actually be appropriately priced.

Sector Risk

Sector risk is the possibility that stocks within the same group of industries will decline in price due to sector-specific market or economic developments. If the Advisor invests a significant portion of its assets in a particular sector, the Fund is subject to the risk that companies in the same sector are likely to react similarly to legislative or regulatory changes, adverse market conditions and/or increased competition affecting that market segment. Similarly, focusing on investments in certain industries subjects the Fund to the risk that companies in that industry are likely to react similarly to legislative or regulatory changes, adverse market conditions and/or increased competition affecting that market segment.

Fund Management Risk

The Advisor's strategy of investing in undervalued securities may fail. The Advisor may be incorrect in its assessment of the intrinsic value of the companies in which the Fund invests, or value stocks may be out of favor with investors. The Fund may underperform and you may lose money.

Performance

Risk/Return Bar Chart and Table

The bar chart and performance table below show the variability of the returns of the Fund, which is one indicator of the risks of investing in the Fund. The bar chart shows changes in the annual returns of the Fund for each full calendar year of operations. The performance table shows how the Fund's average annual total returns compare to those of a broad-based securities market index. The Fund's past performance (before and after taxes) does not necessarily reflect how the Fund will perform in the future. Updated performance information is available at www.adirondackfunds.com or by calling 1-888-686-2729.

Year-by-Year Total Returns for years ended 12/31

During the periods shown in the bar chart, the highest quarterly return was 35.46% for the quarter ended December 31, 2020 and the lowest quarterly return was -36.25% for the quarter ended March 31, 2020. The return for the period from January 1, 2023 to June 30, 2023 was 4.02%.

Average Annual Total Returns as of December 31, 2022

	1 Year	5 Years	10 Years
Return Before Taxes	(1.39)%	3.31%	7.91%
Return After Taxes on Distributions	(1.39)%	2.58%	6.78%
Return After Taxes on Distributions and Sale of Fund Shares	(0.82)%	2.34%	6.12%
Russell 2000 [®] Value Index (reflects no deductions for fees, expenses or taxes)	(14.48)%	4.13%	8.48%
iShares Russell 2000 Value ETF [*]	(14.67)%	3.95%	8.33%

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their Fund shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts.

*The Fund has changed the broad-based securities market index (benchmark index) to which it compares itself from the Russell 2000 Value Index (RUJ) to the iShares Russell 2000 Value ETF (IWN). The IWN represents a realistic alternative for retail investors when deciding between active or passive small cap investing. It also leads to more fair (real world) return comparisons as iShares managers face similar administrative cost, liquidity, and taxation constraints when implementing this index replicating strategy as do active managers. The IWN was launched in 2000 by Barclay's (Now BlackRock Fund Advisors) and is the largest fund available to investors that replicates the RUJ. Its assets are presently over \$10.635 billion, and its historical correlation with the RUJ is 99%.

Investment Advisor: Adirondack Research & Management Inc.

Investment Advisor Portfolio Managers: Matthew P. Reiner and Gregory Roeder are the Fund's Portfolio Managers and have been since 2005 and 2006, respectively.

Purchase and Sale of Fund Shares: The minimum initial investment is \$3,000 and subsequent investments must total at least \$50. You may redeem shares of the Fund on each day that the Fund is open for business by sending a written request to the Fund at 8000 Town Centre Drive, Suite 400, Broadview Heights, OH 44147.

Tax Information: Distributions are taxable to you at ordinary income or capital gains tax rates, unless you are investing through a tax deferred arrangement, such as a 401(k) plan or individual retirement account.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and/or related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Additional Information on Investment Objective, Strategies and Risks

Investment Objective

The objective of the Fund is long-term capital appreciation. The Board of Trustees may change the objective without shareholder approval. If the Fund decides to change its investment objective, shareholders will be given 60 days' advance notice.

Principal Investment Strategies

The Fund seeks to achieve its objective by investing in a diversified portfolio of undervalued common stocks of small capitalization companies as determined by the Advisor. Small capitalization companies are defined by the Advisor as issuers that, at the time of initial purchase, have a market capitalization below \$6 billion. Under normal circumstances, at least 80% of the Fund's total assets will be invested in common stocks of small capitalization companies. The Fund invests primarily in the common stock of domestic companies, but may occasionally invest up to 15% of its total assets in sponsored ADRs issued by foreign companies. During periods in which suitable undervalued equity securities are not available, up to 20% of the Fund's total assets may be invested in money-market securities and/or shares of investment companies with investment objectives and principal investment strategies similar to those of the Fund.

The Advisor employs a contrarian selection strategy, which primarily focuses on out-of-favor securities. Market expectations for such companies are low, resulting in attractive valuations in certain cases. The Advisor analyzes the collection of out-of-favor stocks and selects those the Advisor believes are in the best position to address company and/or industry specific issues and regain investor support.

To find such stocks, the Advisor uses screens that include key valuation metrics such as price-to-book value, price-to-cash flow, price-to-revenue and price-to-earnings. Securities identified by screens then undergo a more comprehensive review, which includes a detailed assessment of the company's management, strategy, financial statements and competition. The Advisor purchases a position for the Fund after extensive due diligence results in a belief that the company will significantly improve operating results within two or three years.

Monitoring existing positions, regularly assessing industry risks and adjusting the portfolio accordingly are also integral components of the investment approach. The Advisor believes a well-conceived exit strategy is an essential part of the risk management process. The Advisor establishes price targets before securities are purchased and re-evaluates these price targets quarterly, or more frequently if conditions warrant. When price targets are reached the position is sold. In addition, the Advisor will reduce positions that exceed 5% of the portfolio and sell those securities when the original investment rationale is no longer justified due to either company specific or industry issues.

From time to time, the Fund may take temporary defensive positions, which are inconsistent with the Fund's principal investment strategies, in attempting to respond to adverse market, economic, political, or other conditions. For example, the Fund may hold all or a portion of its assets in money market instruments, including cash, cash equivalents, U.S. government securities, other investment grade fixed income securities, certificates of deposit, bankers acceptances, commercial paper, money market funds and repurchase agreements. If the Fund invests in a money market fund, the shareholders of the Fund generally will be subject to duplicative management fees. As a result of engaging in these temporary measures, the Fund may not achieve its investment objective. The Fund may also invest in money market instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Principal Risks of Investing in the Fund

Risks in General

Domestic economic growth and market conditions, interest rate levels, political events, climate change and climate-related events, and global pandemics are among the factors affecting the Fund's investments. There is risk that these and other factors may adversely affect the Fund's performance. You should consider your own investment goals, time horizon, and risk tolerance before investing in the Fund. An investment in the Fund may not be appropriate for all investors and is not intended to be a complete investment program. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. You may lose money by investing in the Fund.

Risks of Investing in Common Stocks

The Fund invests primarily in common stocks, which subjects the Fund and its shareholders to the risks associated with common stock investing. These risks include the financial risk of selecting individual companies that do not perform as anticipated, the risk that the stock markets in which the Fund invests may experience periods of turbulence and instability, and the general risk that domestic and global economies may go through periods of decline and cyclical change. Many factors affect the performance of each company in which the Fund invests, including the strength of the company's management or the demand for its products or services. You should be aware that a company's share price may decline as a result of poor decisions made by its management or lower demand for the company's products or services. In addition, a company's share price may also decline if its earnings or revenues fall short of expectations. There are overall stock market risks that may also affect the value of the Fund. Over time, the stock markets tend to move in cycles, with periods when stock prices rise generally and periods when stock prices decline generally. The value of the Fund's investments may increase or decrease more than the stock markets in general.

Foreign Risk

To the extent the Fund invests in foreign securities by purchasing ADRs, the Fund may be subject to risks not usually associated with owning securities of U.S. issuers. These risks can include fluctuations in foreign currencies, foreign currency exchange controls, political and economic instability, differences in financial reporting, differences in securities regulation and trading, and taxation issues.

Risks of Smaller-Sized Companies

To the extent the Fund invests in the stocks of smaller-sized companies, the Fund may be subject to additional risks. The earnings and prospects of these companies are more volatile than larger companies. Smaller-sized companies may experience higher failure rates than do larger companies. The trading volume of securities of smaller-sized companies is normally less than that of larger companies and, therefore, may disproportionately affect their market price, tending to make the share price fall more in response to selling pressure than is the case with larger companies. Smaller-sized companies may have limited markets, product lines or financial resources and may lack management experience.

Value Investing Risk

Value investing attempts to identify companies selling at a discount to their intrinsic value. Value investing may also involve the purchase of securities that are disfavored in the market or companies whose value the Advisor believes is not fully recognized by the investing public. Value investing is subject to the risk that a company's intrinsic value may never be fully realized by the market or that a company judged by the Advisor to be undervalued may actually be appropriately priced.

Sector Risk

Sector risk is the possibility that stocks within the same group of industries will decline in price due to sector-specific market or economic developments. If the Advisor invests a significant portion of its assets in a particular sector, the Fund is subject to the risk that companies in the same sector are likely to react similarly to legislative or regulatory changes, adverse market conditions and/or increased competition affecting that market segment. Similarly, focusing on investments in certain industries, such as the technology industry, subjects the Fund to the risk that companies in that industry are likely to react similarly to legislative or regulatory changes, adverse market conditions and/or increased competition affecting that market segment. There is also the risk that the products or services offered by these companies will not meet expectations or even reach the marketplace. These risks may be increased to the extent that the Fund's portfolio is overweighted in a certain business segment of the technology industry. The sectors in which the Fund may be overweighted will vary.

Fund Management Risk

The Advisor's strategy of investing in undervalued securities may fail. The Advisor may be incorrect in its assessment of the intrinsic value of the companies in which the Fund invests, or value stocks may be out of favor with investors. The Fund may underperform and you may lose money.

Disclosure of Portfolio Holdings

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio securities is available in the Fund's Statement of Additional Information.

Investment Advisor

The investment advisor of the Fund is Adirondack Research & Management Inc., a New York corporation located at 2390 Western Avenue, Guilderland, NY 12084. The Advisor serves the Fund pursuant to a management agreement that continued in effect for the first two years and is renewable on an annual basis by a vote of a majority of the Board of Trustees, including a majority of the trustees of the Trust who are not "interested persons" as that term is defined in

the Investment Company Act of 1940, as amended, cast in person at a meeting called for the purpose of voting on such renewal. Under the terms of this agreement, the Advisor is responsible for formulating the Fund's investment policies, making ongoing investment decisions and engaging in portfolio transactions. The Advisor provides office space, services and equipment and supervises all matters relating to the Fund's operations. The Advisor receives an annual advisory fee of 1.08% of the Fund's average daily net assets. For the year ended March 31, 2023, the Advisor earned advisory fees of \$382,621. A description of the Board of Trustees' deliberations in renewing the management agreement is included in the Fund's semi-annual report for the period ended September 30, 2022.

The Advisor has contractually agreed to defer its management fee and reimburse expenses to the extent necessary to maintain the Fund's total annual operating expenses (excluding brokerage costs, borrowing costs (such as interest and dividends on securities sold short), taxes, extraordinary expenses, and costs of acquired funds) at 1.48% of its average daily net assets until August 1, 2024. The agreement may be terminated by the Fund's Board of Trustees on 60 days' written notice to the Advisor. Any waiver or reimbursement by the Advisor is subject to repayment by the Fund within three years after the waived or reimbursed expenses occurred, if the Fund is able to make the repayment without exceeding the lesser of its current expense limitation or the expense limitation in effect at the time of the reduction, and the repayment is approved by the Board of Trustees. For the year ended March 31, 2023, the Advisor deferred \$40,114 in management fees pursuant to this agreement. The Advisor (not the Fund) may pay certain financial institutions (which may include banks, brokers, securities dealers and other industry professionals) a fee for providing distribution related services and/or for performing certain administrative servicing functions for Fund shareholders to the extent these institutions are allowed to do so by applicable statute, rule or regulation. The Fund may from time to time purchase securities issued by financial institutions that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

Mr. Matthew P. Reiner and Mr. Gregory Roeder are the portfolio managers responsible for the day-to-day management of the Fund.

Matthew P. Reiner, CFA – Joined the Advisor in February 2005 as principal, chief investment officer and co-portfolio manager of The Adirondack Small Cap Fund. He has over 20 years of experience in the financial services industry. Previously, Matt was an institutional portfolio manager and vice president of research at Paradigm Capital Management. He began his investment career with CL King & Associates as a sell-side research associate and later as an equity analyst. Matt earned his MBA from the University at Albany and his undergraduate degree from the State University of New York at Plattsburgh. He has been a holder of the Chartered Financial Analyst designation since 1999.

Gregory A. Roeder, CFA – Founded the Advisor in 2004 and currently serves as co-portfolio manager of The Adirondack Small Cap Fund. Prior to founding the Advisor, Greg served 18 years in various capacities within the financial services industry. His experience includes analyst/portfolio manager for Eddy & Wakefield, equity research analyst for CL King and Associates and assorted roles within KeyCorp's credit/risk management groups. Greg graduated from the State University of New York at Plattsburgh with a bachelor's degree in economics and Hofstra University with a master's degree in finance. Greg has been a holder of the Chartered Financial Analyst designation since 2002.

The Fund's Statement of Additional Information provides information about the Advisor and about each portfolio manager's compensation, other accounts managed by each portfolio manager, and each portfolio manager's ownership of Fund shares.

Shareholder Information

Who should invest?

Long-Term Investors

This Fund is intended to be a long-term investment vehicle and is not designed to provide investors a way to speculate on short-term stock market movements.

Diversified Investors

Investors should maintain diversified holdings of securities and not consider this Fund as their sole source of equity exposure.

Risk Tolerant Investors

This Fund will be comprised mostly of investments in smaller publicly-traded companies with market capitalizations below \$6 billion. Smaller companies are often characterized by modest trading volume, earnings volatility and limited research coverage. As such, the share prices of these securities may vary significantly from day-to-day. Investors should be prepared for such unpredictability, as this Fund will likely be more volatile than those funds that invest in securities of larger issuers.

How to Purchase Shares

You may purchase shares on any business day. This includes any day the Fund is open for business, other than weekends and days on which the New York Stock Exchange (“NYSE”) is closed, including New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. Shares may be purchased directly from the Fund by sending a completed application and a check in the amount of your investment to the addresses below. Your check should be made payable to the “Adirondack Small Cap Fund.” Cash, third-party checks and traveler’s checks are not accepted. Eligible purchases must meet applicable minimum investment requirements. All investments must be in U.S. dollars, and the checks must be drawn on a U.S. bank. All purchases of shares will be made at the next calculated net asset value (“NAV”) after a completed order is received by the Fund or its agent. The Fund does not issue share certificates. You will receive quarterly statements and a confirmation of each transaction. You should verify the accuracy of all transactions in your account as soon as you receive your confirmation.

Regular Mail:

c/o The Adirondack Small Cap Fund
Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147

By Wire Transfer:

You may purchase shares directly through the Fund’s Transfer Agent or through a brokerage firm or other financial institution that has agreed to sell the Fund’s shares. If you are investing directly in the Fund for the first time, you will need to establish an account by completing a Shareholder Account Application. To establish an IRA, complete an IRA Application. To request an application or arrange for a purchase by wire, call toll-free 1-888-686-2729.

You also may purchase Fund shares by making automatic periodic investments from your bank account. To use this feature, select the automatic investment option in the account application and provide the necessary information about the bank account from which your investments will be made. You may revoke your election to make automatic investments by calling 1-888-686-2729 or by writing to the Fund at:

The Adirondack Small Cap Fund
c/o Mutual Shareholder Services, LLC
8000 Town Centre Drive, Suite 400
Broadview Heights, OH 44147

A \$20 fee will be charged against your account for any payment check returned to the Transfer Agent or for any incomplete electronic fund transfer, or for insufficient funds, stop payment, closed account or other reasons. If a check does not clear your bank, the Fund reserves the right to cancel the purchase. If your purchase is canceled, you will be responsible for any losses to the Fund or fees imposed by your bank. The Fund (or Fund agent) has the authority to redeem shares in your account(s) to cover any losses due to fluctuations in share price. Any profit on such cancellation will accrue to the Fund. Your investment in the Fund should be intended to serve as a long-term investment vehicle. The Fund is not designed to provide you with a means of speculating on the short-term fluctuations in the stock market. The Fund reserves the right to reject any purchase request that it regards as disruptive to the efficient management of the Fund, which includes investors with a history of excessive trading. The Fund also reserves the right to stop offering shares at any time.

IMPORTANT INFORMATION ABOUT PROCEDURES FOR OPENING A NEW ACCOUNT

To help the government fight the funding of terrorism and money laundering activities, Federal law requires all financial institutions to obtain, verify, and record information that identifies each person who opens an account. This means that, when you open an account, we will ask for your name, address, date of birth, and other information that will allow us to identify you. We may also ask for identifying documents and may take additional steps to verify your identity. We may not be able to open an account or complete a transaction for you until we are able to verify your identity.

How Net Asset Value is Determined

The value of a single share of the Fund is known as its “net asset value” per share or “NAV.” The Fund’s NAV per share is normally calculated as of the close of the regular session of trading on the NYSE (normally 4:00 p.m., Eastern Time) on each weekday except New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The Fund’s NAV may be calculated earlier, however, if the NYSE closed early, trading on the NYSE is restricted or as permitted by the Securities and Exchange Commission (“SEC”). Transactions are processed at the NAV next calculated after the Fund (or an authorized broker, financial intermediary, or their authorized designee) receives the order.

The Fund’s NAV is determined by taking the market value of all securities owned by the Fund (plus all other assets such as cash), subtracting all liabilities and then dividing the result (net assets) by the number of shares outstanding.

The Fund’s securities are valued primarily on the basis of market quotations. If market prices are not available or, in the opinion of the Fund’s Board of Trustees, market prices do not reflect fair value, or if an event occurs after the close of trading (but prior to the time the NAV is calculated) that materially affects fair value, the Board of Trustees may value the Fund’s assets at their fair value according to procedures approved by the Board of Trustees. For example, if trading in a thinly traded portfolio security is halted and does not resume before the Fund calculates its NAV, the Board of Trustees may need to price the security using the Fund’s fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of a Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders,

but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short-term traders.

To the extent the Fund invests in other investment companies, the NAV of the investment companies in which the Fund invests will be included in the calculation of the Fund's NAV. The prospectuses of those investment companies explain the circumstances under which those investment companies will use fair value pricing and the effects of using fair value pricing.

Transactions through Brokers and Other Intermediaries

The Fund has authorized brokerage firms and other financial intermediaries to receive purchase and redemption orders on the Fund's behalf. These brokers and financial intermediaries may designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. If you buy or sell shares through a brokerage firm or other financial intermediary, the policies and fees may be different than those described here. They may charge transaction and other fees and may set different minimum investments or limitations on buying or selling shares. Consult a representative of your financial institution if you have any questions. The Fund will be deemed to have received a purchase or redemption order when the authorized broker, financial intermediary, or authorized designee receives the order. Your financial institution is responsible for transmitting your order in a timely manner.

Minimum Investment

The minimum initial investment is \$3,000 and subsequent investments must total at least \$50. The minimum initial investment requirement for tax qualified retirement plans is \$1,000 with no minimum for subsequent investments. See "How to Purchase Shares." The Fund reserves the right to change these minimums at any time.

The required minimum initial investment (for both regular accounts and tax qualified retirement plans) has been temporarily waived until August 1, 2024 for shareholders that are new to the Fund and that open their accounts with the automatic investment option.

Householding

To reduce expenses, we mail only one copy of the prospectus and each annual and semi-annual report to those addresses shared by accounts that have requested paper copies of these documents. If you wish to receive individual copies of these documents, please call the Fund at 1-888-686-2729 or contact your financial institution. We will begin sending you individual copies thirty days after receiving your request.

How to Redeem Shares

The Fund typically expects that it will take up to seven days following the receipt of your redemption request to pay out redemption proceeds by check or electronic transfer, except as noted below. The Fund typically expects to pay redemptions from cash, cash equivalents, proceeds from the sale of Fund shares, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions.

You may redeem shares of the Fund on each day that the Fund is open for business by sending a written request to the Fund at 8000 Town Centre Drive, Suite 400, Broadview Heights, OH 44147. The request must state the number of shares or the dollar amount to be redeemed and your account number. The request must be signed exactly as your name appears on the Fund's account records.

You may redeem any part of your account in the Fund by calling the Fund's Transfer Agent at 1-888-686-2729. You must first complete the Optional Telephone Redemption section of the investment application to institute this option. The Fund and the Transfer Agent are not liable for following redemption instructions communicated by telephone to the extent that they reasonably believe the telephone instructions to be genuine. However, if they do not employ

reasonable procedures to confirm that telephone instructions are genuine, they may be liable for any losses due to unauthorized or fraudulent instructions. Procedures employed may include recording telephone instructions and requiring a form of personal identification from the caller.

The Fund or the Transfer Agent may terminate the telephone redemption procedures at any time. During periods of extreme market activity, it is possible that shareholders may encounter some difficulty in telephoning the Fund, although neither the Fund nor the Transfer Agent has ever experienced difficulties in receiving and in a timely fashion responding to telephone requests for redemptions. If you are unable to reach the Fund by telephone, you may request a redemption by mail.

A signature guarantee of each owner is required to redeem shares in the following situations:

- if you change ownership on your account,
- if you request the redemption proceeds be sent to a different address than that registered on the account,
- if a change of address request has been received by the Transfer Agent within the last 15 days, or
- if you wish to redeem \$25,000 or more from any shareholder account.

Signature guarantees are available from most banks, broker-dealers, municipal securities brokers and dealers, government securities brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations. A notary public is not an acceptable guarantor.

You may request that redemption proceeds be wired directly to your existing account in any commercial bank or brokerage firm in the United States. The Fund will not wire redemption proceeds to third parties except to financial intermediaries for the benefit of shareholder(s) of record. There is currently a \$20 charge for processing wire redemptions. All charges will be deducted from your account by redemption of shares in your account. Your bank or brokerage firm may also impose a charge for processing the wire. In the event that wire transfer of funds is impossible or impractical, the redemption proceeds will be sent by mail to the designated account address.

You may also redeem shares by placing a wire redemption through a securities broker or dealer. Broker-dealers may impose a fee on the shareholder for this service. It is the responsibility of broker-dealers to properly transmit wire redemption orders.

You will receive the NAV per share next determined after receipt by the Fund or its agent of your redemption request in the form described above. The Fund will not make checks for redemption proceeds payable to third parties except to financial intermediaries for the benefit of shareholder(s) of record. Payment will be effected within seven days after tender in such form, provided that payment in redemption of shares purchased by check will be effected only after the check has been collected, which may take up to fifteen days from the purchase date. To eliminate this delay, you may purchase shares of the Fund by certified check or wire.

At the discretion of the Fund, corporate investors and other associations may be required to furnish an appropriate certification authorizing redemptions to ensure proper authorization. The Fund reserves the right to require you to close your account if at any time the value of your shares is less than \$1,000 (based on actual amounts invested, unaffected by market fluctuations), or such other minimum amount as the Fund may determine from time to time. After notification to you of the Fund's intention to close your account, you will be given 60 days to increase the value of your account to the minimum amount.

The Fund reserves the right to suspend the right of redemption or to postpone the date of payment for more than seven days when: (i) trading on the NYSE is restricted; (ii) the NYSE is closed (other than weekend and holiday closings); (iii) an emergency exists, as determined by the SEC; or (iv) the SEC has permitted a suspension. All shares of the Fund are also subject to involuntary redemption if the Board of Trustees determines to liquidate the Fund. Any involuntary redemption will create a capital gain or loss, which may have tax consequences about which you should consult your tax advisor.

Tax-Deferred Retirement Plans

The Fund's Individual Retirement Account ("IRA") application and additional forms required may be obtained by contacting the Fund at 1-888-686-2729. For IRAs, the initial minimum investment is \$1,000 with no minimum for subsequent contributions. The account will be maintained by the custodian, which currently charges an annual maintenance fee of \$8, which is subject to change.

Investors who are self-employed may purchase shares of the Fund through tax-deductible contributions to retirement plans for self-employed persons, known as Keogh or H.R. 10 plans. However, the Fund does not currently act as a sponsor or administrator for such plans. Fund shares may also be purchased for other types of qualified pension or profit sharing plans which are employer-sponsored, including deferred compensation or salary reduction plans known as "401(k) Plans" which give participants the right to defer portions of their compensation for investment on a tax-deferred basis until distributions are made from the plan.

Dividends and Distributions

The Fund expects that distributions to shareholders will consist primarily of capital gains, and that it will distribute substantially all of its net investment income and net realized gains, if any, annually. Dividends and distributions are automatically reinvested in additional shares of the Fund (the Share Option) unless cash payments are specified on your application or are otherwise requested by written instructions to the Fund.

If you elect to receive dividends in cash and the U.S. Postal Service cannot deliver your checks or if your checks remain un-cashed for six months, your dividends will be reinvested in your account at the then-current NAV and your account will be converted to the Share Option.

Taxes

The following discussion relates solely to the federal income tax treatment of dividends and distributions by the Fund. Investors should consult a tax advisor for the application of tax laws to their particular situations.

The Fund has qualified and intends to continue to qualify as a "regulated investment company" under Subchapter M of the Code by annually distributing substantially all of its net investment company taxable income and net capital gains in dividends to its shareholders and by satisfying certain other requirements. By so qualifying, the Fund will not be subject to federal income tax or excise tax based on net income on that part of its investment company taxable income and net realized short-term and long-term capital gains which it distributes to its shareholders in accordance with the Code's requirements.

Dividends and distributions paid to shareholders are generally subject to federal income tax and may be subject to state and local income tax. Dividends from net investment income and distributions from any excess of net realized short-term capital gains over net realized capital losses are currently taxable to shareholders as ordinary income.

Distributions of net capital gains by the Fund to its shareholders are taxable to the recipient shareholders as long-term capital gains, without regard to the length of time a shareholder has held Fund shares. Redemptions of shares of the Fund are taxable events on which a shareholder

may realize a gain or loss. To avoid a 24% federal backup withholding tax requirement on dividends, distributions and redemption proceeds, individuals and other non-exempt shareholders must certify their taxpayer identification number to the Fund on the investment application. A shareholder may also be subject to backup withholding if the Internal Revenue Service notifies the Fund that the shareholder is subject to backup withholding for previous under-reporting of interest or dividend income. Amounts withheld by the Fund are applied to the shareholder's federal income tax liability. Foreign shareholders may be subject to federal income tax withholding of up to 30% of dividends, distributions and redemption proceeds from the Fund.

Reports containing appropriate federal income tax information (relating to the tax status of dividends and capital gain distributions by the Fund) will be furnished to each shareholder not later than 30 days following the close of the calendar year during which the payments are made. The above discussion concerning the taxation of dividends and distributions received by shareholders is applicable whether a shareholder receives such payment in cash or reinvests such amount in additional shares of the Fund.

Frequent Purchases and Sales of Fund Shares

The Fund discourages and does not accommodate frequent purchases and sales of fund shares, often referred to as market timing. Market timing is an investment strategy using frequent purchase, redemptions and/or exchanges in an attempt to profit from short-term market movements. Frequent purchases and redemptions of Fund shares may result in dilution of the value of Fund shares held by long-term shareholders, disrupt portfolio management and increase Fund expenses for all shareholders.

The Fund reserves the right to reject any purchase order for any reason, including purchase orders that it does not think are in the best interest of the Fund or its shareholders or if the Fund thinks that trading is abusive. Neither the Fund nor the Advisor will be liable for any losses resulting from rejected purchase or exchange orders. The Advisor may also bar an investor who has violated these policies (and the investor's financial advisor) from opening new accounts with the Fund.

While the Fund attempts to deter market timing, there is no assurance that it will be able to identify and eliminate all market timers. For example, certain accounts called "omnibus accounts" include multiple shareholders. Omnibus accounts typically provide the Fund with a net purchase or redemption request on any given day where purchasers of Fund shares and redeemers of Fund shares are netted against one another and the identity of individual purchasers and redeemers whose orders are aggregated are not known by the Fund. However, the Fund's agreements with financial intermediaries that sell shares of the Fund will require the intermediaries to provide shareholder identity and transaction information to the Fund, and obligate the intermediaries to carry out the Fund's instructions to enforce the Fund's market timing policies.

Cybersecurity

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or

functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the Advisor, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

Financial Highlights

The financial highlights table is intended to help you understand the Fund's financial performance for past 5 years. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned or lost on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been audited by Sanville & Company, whose report, along with the Fund's financial statements, are included in the Fund's annual report, which is available upon request.

	Years Ended				
	3/31/2023	3/31/2022	3/31/2021	3/31/2020	3/31/2019
Net Asset Value, at Beginning of Year	\$ 23.17	\$ 21.35	\$ 10.99	\$ 17.24	\$ 21.40
Income From Investment Operations:

Ratios/Supplemental Data:					
Net Assets at End of Year (Thousands)	\$ 34,416	\$ 46,702	\$ 56,464	\$ 62,450	\$ 152,958
Before Waivers and Reimbursements					
Ratio of Expenses to Average Net Assets	1.59%	1.43%	1.45%	1.35%	1.24%
Ratio of Net Investment Income (Loss) to Average Net Assets	(0.27)%	(0.45)%	(0.38)%	0.09%	(0.03)%
After Waivers and Reimbursements					
Ratio of Expenses to Average Net Assets	1.48%	1.43%	1.45%	1.35%	1.24%
Ratio of Net Investment Income (Loss) to Average Net Assets	(0.16)%	(0.45)%	(0.38)%	0.09%	(0.03)%
Portfolio Turnover	28.07%	21.81%	32.52%	32.96%	30.77%

* Per share net investment income (loss) has been determined on the basis of average shares outstanding during the year.

** Assumes reinvestment of dividends.

PRIVACY NOTICE

FACTS WHAT DOES ADIRONDACK FUNDS DO WITH YOUR PERSONAL INFORMATION?

Why? Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What? The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- Social Security number
- Assets
- Retirement Assets
- Transaction History
- Checking Account Information
- Purchase History
- Account Balances
- Account Transactions
- Wire Transfer Instructions

When you are *no longer* our customer, we continue to share your information as described in this notice.

How? All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Adirondack Funds chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does Adirondack Funds share?	Can you limit this sharing?
For our everyday business purposes – such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes – to offer our products and services to you	No	We don't share
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes – information about your transactions and experiences	No	We don't share
For our affiliates' everyday business purposes – information about your creditworthiness	No	We don't share
For nonaffiliates to market to you	No	We don't share

Questions? Call (888) 686-2729

Who we are

Who is providing this notice? Adirondack Funds

What we do

How does Adirondack Funds protect my personal information? To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

Our service providers are held accountable for adhering to strict policies and procedures to prevent any misuse of your nonpublic personal information.

How does Adirondack Funds collect my personal information? We collect your personal information, for example, when you

- Open an account
- Provide account information
- Give us your contact information
- Make deposits or withdrawals from your account
- Make a wire transfer
- Tell us where to send the money
- Tells us who receives the money
- Show your government-issued ID
- Show your driver's license

We also collect your personal information from other companies.

Why can't I limit all sharing? Federal law gives you the right to limit only

- Sharing for affiliates' everyday business purposes – information about your creditworthiness
- Affiliates from using your information to market to you
- Sharing for nonaffiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.

Definitions

Affiliates Companies related by common ownership or control. They can be financial and nonfinancial companies.

- *Adirondack Funds doesn't share with our affiliates.*

Nonaffiliates Companies not related by common ownership or control. They can be financial and nonfinancial companies

- *Adirondack Funds doesn't share with nonaffiliates so they can market to you.*

Joint marketing A formal agreement between nonaffiliated financial companies that together market financial products or services to you.

- *Adirondack Funds doesn't jointly market.*
